

The Avonite® Right Size™ Solution

Avonite Surfaces is the industry leader in solid surface solutions for designers, architects, and fabricators. We specialize in providing superior products at a competitive price — and that’s why we created the Right Size Program. You can order the lengths and widths that you need: reduce waste, cut costs. You can do so much more with Avonite.

What makes Avonite® Right Size™ So Great?

Typical Manufacturers

- Most standard dimensions no wider than 30" and no longer than 144"
- Shorter, narrower pieces mean more seams, more labour, more adhesives and longer fabrication time
- More time required per job site – lower productivity means fewer jobs completed per year
- Wasted material means money laying in a scrap pile that ends up in landfills
- More material required equals higher shipping costs to deliver excess material that will be wasted

Right Size by Avonite

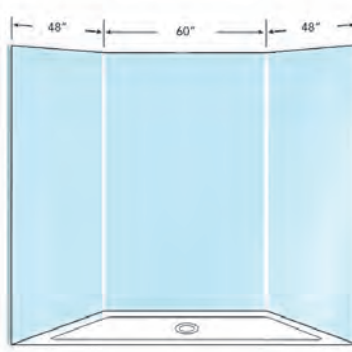

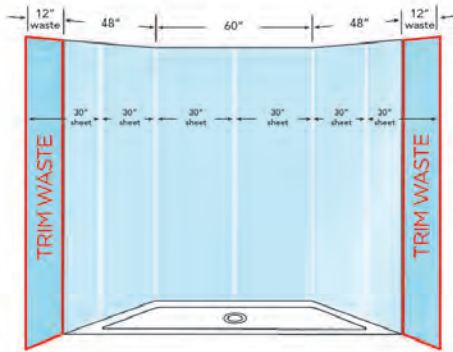

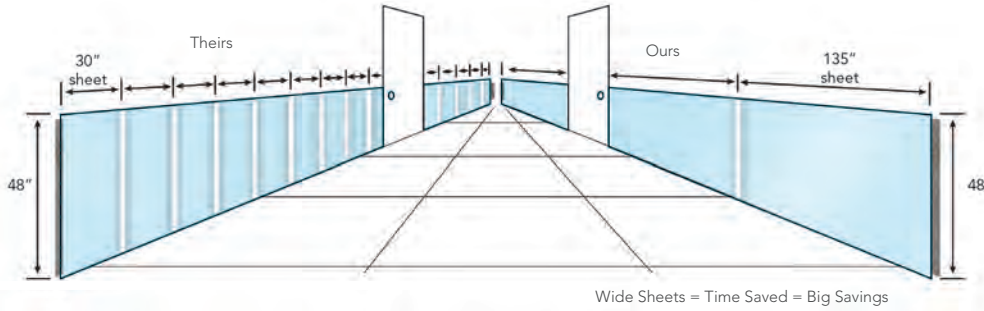

- ▲ Widths up to 60", lengths up to 204" and thicknesses from 3mm to 19mm *
- ▲ Fewer seams, less adhesive, reduced wait on drying time
- ▲ Faster fabrication and installation means more efficiency per job
- ▲ Less waste
- ▲ Purchase less material, lower shipping costs

* 6" width increments from 30"–60"

Visit www.avonite.com for case studies and details on how designers and contractors saved substantial time and money with the **Avonite Right Size Program**, or call your Avonite representative for details at **1 800 354 9858**.

Cut Costs. Reduce Waste.

Order just the lengths and widths you need - cut costs, reduce waste, installation time, and do so much more.

Theirs

Ours
