# Element Veneer Extended Collection

Our line of composite veneers brings together state-of-the-art manufacturing technology and the best of what nature has to offer. Through the use of environmentally friendly materials from managed forests, comes an extensive line of engineered natural wood veneers that ensures uniformity and repeatability of grain and colour sheet to sheet.

## Why Element Veneer Extended Collection?

- Over 50 colours stocked in North America
- Manufactured in Italy to European standards
- Oversized 10' lengths available
- Environmentally friendly materials – sustainably sourced wood
- Uniformity and repeatability
- Colour and grain consistency
- Custom patterns and colours

## Installation and Finishing Tips

- Element Veneer is like all wood veneers, it will fade or change colour with exposure to a strong light source, a UV inhibiting finish is necessary to slow down fading or colour change.
- **IMPORTANT** Element Veneer Usage Guide available online at [www.ucfp.com](http://www.ucfp.com)

## ELEMENT VENEER SPECIFICATIONS

<b>Name:</b>	Element Veneer

<b>Thickness:</b>	5.2mm to 38mm
<b>Certification of Core:</b>	TSCA VI, FSC® Mix Credit, NAF, NAUF or ULEF (Varies by cores selected)
<b>Lead time:</b>	4-6 weeks

### Element Veneer Usage and Specification Guide

- 1) Element Veneer is made from real wood and should be treated and processed as you would other real wood products.
- 2) Finishes with an appropriately tested, high-quality UV inhibitor are highly recommended.
- 3) Backer/Substrate is required and can include medium density fibreboard (MDF), particle-board (PB), cross banded MDF (MDX) and veneer quality plywood.
- 4) When bonding Element Veneer to a substrate please follow the directions of the adhesive manufacturer.
